

NEXT STEPS

David Pollard
Co-ordinator CAME-GT

CAME-GT

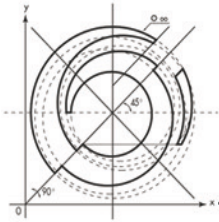

Next Steps?

Address the Strategic Priorities for Gas Turbine RTD

- Management of Greenhouse Gases
- Exploiting the potential of new ICTs in GT RTD
- Socio-economic research related to GT technologies and their impact
- International co-operation & co-ordination with Member State research programmes and EU wide research networks
- Pre-normative research of interest at EU levels

CAME-GT

Next Steps?

ALSTOM

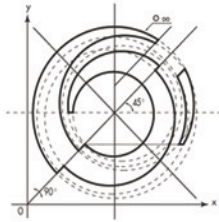

‘We need to collaborate to move forward’

Phillipe Busquin

European Commissioner for Research

January 2000

CAME-GT

Next Steps?

Identify the potential for a European Research Area in Gas Turbine Technology through

- Networks of Excellence
- Virtual Institutes

bringing together gas turbine manufacturers and researchers in EU member states and the Accession Countries to

- increase competitiveness
- improve the quality of life for European citizens
